Message from Dr. Aaron Shum, Founding President, Hong Kong - Middle East Business Chamber

Having lived and conducted business in the Middle East for over 4 decades, I have the great honor to witness the region's rapid growth and transformative changes in the front row. Throughout this time, I have been involved in various industries and have come to firmly believe that the Middle East is an indispensable market for Hong Kong's future development.

Since the founding of the HKMEBC in July 2023, there has been a remarkable surge in interest from both Hong Kong and Mainland China in the abundant opportunities offered by the thriving Middle East economies. Our delegation encompasses a diverse range of industries, from tourism and fisheries to A.I., skytrain, and medical equipment, among others. We also see that many of our Middle East counterparts are also eager to connect with businesses in Hong Kong and the Greater Bay Area of China. I eagerly anticipate the arrival of more delegations in the years to come.

I am enthusiastic about collaborating with you to forge a bright future in the Middle East and contribute to Hong Kong's economic development. Thank you for your support and partnership.

Dr Aaron Shum,

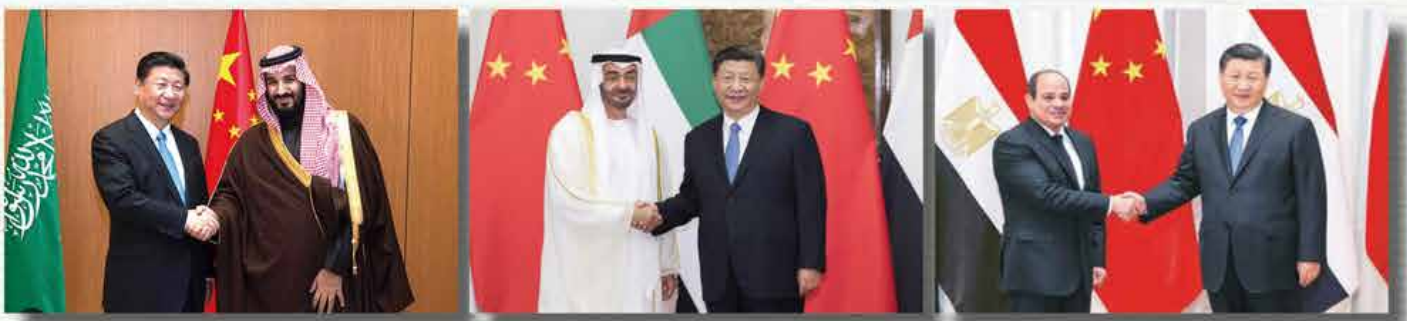

Founding President,
Hong Kong - Middle East Business Chamber

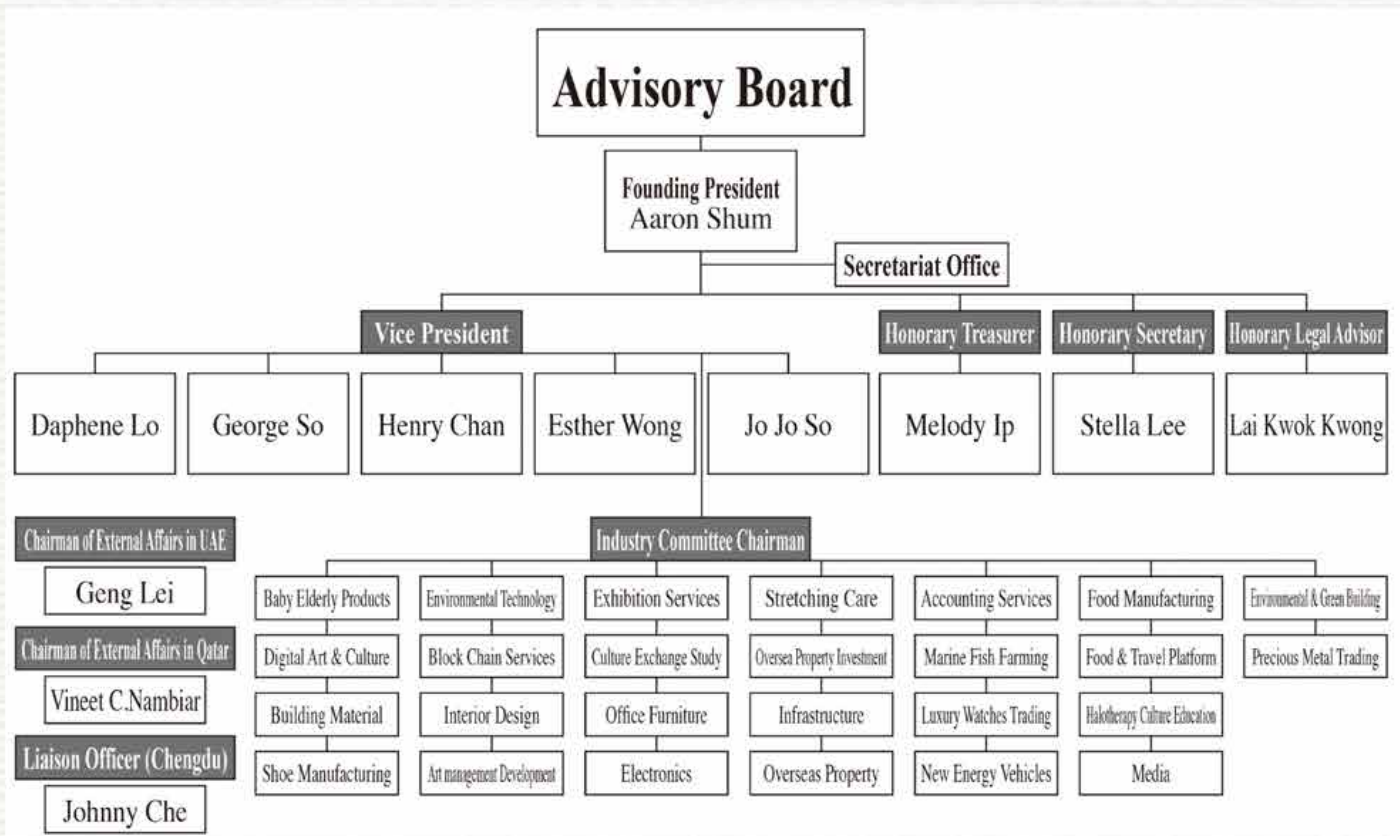

Hong Kong – Middle East Business Chamber's Founding Objectives

After Chinese President Xi Jinping's state visit to the Middle East at the end of 2022, the Chief Executive of HKSAR, Mr. John KC Lee, subsequently led a delegation from the HKSAR to visit the Middle East in 2023, and had successfully concluded 13 cooperation memorandums and agreements, sparking a Middle East craze in the community.

In answer to the national policy of supporting SME's to go global into the Middle East, and attract investors to enter the Hong Kong market, our Founding President, Dr. Aaron Shum, initiated the Hong Kong-Middle East Business Chamber (HKMEBC). The mission of HKMEBC is to actively disseminate the latest information concerning both markets through prevailing business networks, provide business matching arrangements for members, arrange visits and business exchanges between the two regions, and bring home new development opportunities to members of Hong Kong's enterprises. More than 270 companies and business associations from different industries have since joined HKMEBC. The Chamber has also received strong support from major commercial enterprises and government departments in the business and industrial sectors.

Hong Kong - Middle East Business Chamber's Structure

ADVISORY BOARD TITLES:

- **MR. David Eldon (GBS, CBE, JP)**, Former Chairman of HSBC Hong Kong and Dubai DIFC Chairman and Current Deputy Chairman of HSBC Asia Pacific

THE CURRENT PROBLEM:

IVF inherently delivers a poor user experience due to it being a painful, stressful, and time-consuming process with a low success rate.

Technical Pain Points of In-Vitro-Fertilisation:

1. Invasive and Painful Hormone Stimulation Therapy
2. Limited Usable Eggs that Further Lowers in Quality with Age

Dr. George So MH LHD

MISSION AT EGGLOGICS

Increase the quantity and quality of oocytes from ovarian stimulation
Precisely assess oocyte quality

THE SOLUTION

EGGBOOST: An autologous treatment for increasing **USABLE** oocytes using discarded materials
EGGCHECK: A fast gene-based oocyte quality assessment

PROPRIETARY CHIP TECHNOLOGY OF EGGBOOST

- High-throughput (6 oocytes/chip)
- Robust
- Automated
- Low manufacturing cost

BENEFITS OF EGGBOOST

Creates hope for patients with low ovarian function, pre-mature ovarian ageing, poor oocyte morphology, or a low number of mature oocytes

Available oocytes for IVF

Fertilization rate

Blastocyst rate

Abnormal polar body rate

3X

2X

2X

-2X

	Pronuclear Transfer	Augment	EggBoost
Donor Cell	Oocytes from donor	Ovarian Stem Cell (OSC)†	Ovarian Stem Cell
Biological Materials Transferred	Nucleus	OSC mitochondria	Own Mitochondria/Protein
Donor cell extraction	Required	Required	Not Required
Oocyte Transfer	Invasive (Injection)	Invasive (Injection)	Natural
Ethical Concerns	Yes	Yes	Approval obtained*
IVF Lab Implementation	Very difficult	Difficult	Easy
Cost	\$\$\$\$\$	\$\$\$	\$
Commercial Service	No	Banned by FDA, Company delisted from Nasdaq (OviScience)	EggLogics

Works on MI only

Works on GV and MI

Other available technologies are more expensive, difficult, and invasive.

A **gene-based egg quality assessment** to **exclude poor quality eggs** in IVF, allowing the best batch of eggs collected

EGGcheck

EGGcheck FEATURES:

Robust, non-invasive technology

Low technical requirements

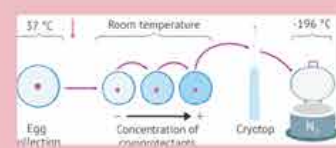

Highly Accessible

100% Compatible with existing IVF Technologies

	Fertile	Discard	Future Fertility	EggLogics
Technology	Assess	Genetically Certified Oocyte technology	Visual/Microscopy	EggCheck
Required material	Cumulus cells surrounding the egg	Polar body	Whole single (egg)	Immature eggs
Egg Quality Information	Dynamic Cell activity	Static (Chromosome)	Oocyte morphology (Increased assessment method)	Dynamic Cell activity
Quality based on	Gene expression (mRNA)	Chromosome structure (similar to polar body body) by Next generation sequencing (NGS)	All low assess weight quality based on 2D image features	Gene expression (mRNA)
Nature of quality assessment	Select eggs that are likely to produce better IVF outcome using specific IVF protocol	Exclude eggs with chromosomal defects	Egg grading based on egg image score	Exclude eggs with poor developmental potential
Quality information level	Human (and single)	Chromosome (multi)	Cell/Low	Human (and single)
Additional egg processing	Removal of Cumulus cells	Removal of polar body	Yes	No
Specific IVF protocol required	1. Stimulation with highly purified human chorionic gonadotropin followed by intracytoplasmic sperm injection (ICSI) 2. 22 to 30 years with good ovarian response 3. Embryos must be collected on-day 1	No	No	No

THE LIMITS OF EGG FREEZING (CRYOPRESERVATION)

Egg Quality Assessment methods are limited.

Current methods use morphological assessment, which has low accuracy and can limit successful identification of favourable eggs
There can be a huge difference in viability between two "good looking" eggs.

THE SOLUTION: EGGcheck

A quick check for egg quality, providing a cheaper, less time consuming, less resource dependent, and reliable result

	Conventional	EggCheck
Method	Morphology (microscopy)	Genomics
Accuracy	Low	High
Technical requirement	High Need an experienced IVF physician	Low
Result variation	Possible	Low
Cost	High	Low

EGGcheck - PROCESS

Manufactured in Hong Kong Facilities
– 3000 assay kits /month

The egg collection kit is distributed to clinical providers. An online platform was developed for data submission and collection.
The samples will be shipped to HK for analysis, and results will be available in 24 hours.

EggCheck and EggLogics targets the existing IVF + unexplored young female egg-freezing market (Smart freezing)

Unlock **fertility**

WITH EGGCELLENT IDEAS

"#1 Business Simulation Game in the World"

CAPITALISM Lab

A PROUD
INVENTION
FROM
HONG KONG

ABOUT THE GAME

CAPITALISM LAB is a business simulation software that replicates the dynamics of a real-world business environment. It allows professional and students to take on the role of a CEO and make strategic decisions to run their own company. Through simulation, the players gain hands-on experience in managing various aspects of a business, such as strategic planning, production, marketing, finance and human resources. This immersive learning experience enhances their understanding of business concepts and prepares them for real-world challenges.

"WE ARE SEEKING TO COLLABORATE WITH STRATEGIC PARTNERS WITH BUSINESS TRAINING NEEDS."

• MINISTRY OF EDUCATION:

Incorporate a practical business education module into the standard school curriculum to better prepare students for real-world challenges.

• UNIVERSITIES & HIGH SCHOOLS:

Enhance economics, business, and MBA programs by integrating a dynamic, interactive learning platform.

• PROFESSIONAL ORGANIZATIONS, INCLUDING LAW AND ACCOUNTING FIRMS:

Equip your team with advanced training in finance, market analysis, and risk management to sharpen their competitive edge.

• TRAINING INSTITUTIONS AND CORPORATIONS :

Offer immersive, hands-on business strategy courses that go beyond traditional learning methods.

• INTERNATIONAL AND LOCAL CORPORATIONS:

A groundbreaking resource that redefines the approach to learning business.

TRANSFORMATIVE LEARNING WITH MEASURABLE OUTCOMES:

- **Interactive Case Studies:** Replace traditional case studies with real-time simulations, providing instant feedback on business decisions.
- **Team Building:** Enhance collaboration as players manage different houses and departments and compete in the marketplace.
- **Competency Development:** Nurture skills in leadership, financial literacy, strategic planning, and more.
- **Engagement:** High levels of user engagement leads to better retention of business concepts and principles.

CAPITALISM LAB is not just a game; it's a revolutionary tool that's transforming the way professionals and students learn business strategy, management, and economic principles.

"That is until now. Even the desk jockey can claw his way to the top in Capitalism, the game."

"Why shell out \$30K a year in tuition when... anyone can get an MBA in a box."

"In terms of scope and comprehensiveness, it has no equal in the world of business simulations."

"It can be a fun and useful exercise for anyone who wants to test their entrepreneurial mettle without, for once, taking any risk."

Harvard University and Stanford University

ABOUT GERMAGIC BIOCHEMICAL TECHNOLOGY

Comprehensive anti-epidemic protection to the public and various types of crowd activities place, and widely apply GERMAGIC microcapsule release technology to families, schools, hospitals, offices, public areas.

GERMAGIC™ is an antimicrobial coating which gives "contact-killing", "release-killing" and "anti-adhesion"

GERMAGIC™ Thyme combines antimicrobial encapsulation with germicidal thyme essential oil for a more long-lasting and durable effect.

GERMAGIC™ G is an encapsulated gel that controlled-releases organic biocides, metabolic inhibitors and active disinfectants to suppress malodour generation in waste and water treatments.

HKUST - APEL
Joint Laboratory
Health & Environmental
Innovations

Researchers have developed a Multilevel Antimicrobial Polymer (MAP-1) coating that is effective in killing viruses, bacteria and even hard-to-kill spores. MAP-1 can inactivate up to 99.9% of highly-infectious viruses such as measles, mumps and rubella, and 99.99% of the surrogate feline calicivirus (FCV) - a gold standard for disinfection efficiency and is more resistant than coronaviruses such as the one responsible for COVID-19 epidemic.

HALOTHERAPY CONCEPT

'هالو' هو الملح اليوناني، وقد تم استخدامه منذ القرن الثاني عشر. في غرفة الملح الصخري الطبيعي النقي من جبال الهيمالايا مرافق درجة الحرارة حوالي ٢٠ درجة مئوية، عن طريق استنشاق الأيونات السالبة المنبعثة من رذاذ الملح الجاف، يمكن ان يساعد في تنقية الجهاز التنفسي لدينا، وتخفيف انسداد المسام في البشرة، وايضاً في تخفيف الظواهر مثل تقليل الالتهاب أو حساسية الجلد.

Halo means salt in Greek, it has been used as early as the 12th century. In a pure natural Himalayan rock salt room with a temperature of around 20 degrees Celsius, by inhaling the negative ions released from dry salt aerosols, it can help purify our respiratory system, relieve the blockage of pores in our skin, and alleviate phenomena such as reducing inflammation or skin allergy.

OUR STORY

The legend was unveiled by the birth of Peter Sheung, the late father of Pinky Seung, founder and designer of Hong Kong-based high-end jewellery brand Headragon.

Peter opened his first shop in the Royal Navy Base in Admiralty and later expanded with branches in Kowloon Tong, Shek Kong and Wan Chai, engaged in the making and sales of conventional Victorian jewellery.

Founder Pinky, leveraging her profound expertise in art collecting and meticulous research into international private custom fashion, proposed the company's vision of creating a leading brand in personalized jewelry. With an international top-tier design and craftsmanship team, the goal is to create unique and timeless jewelry pieces.

SINCE 1948

BRAIN ONE Gold

Memory is humanity's true treasure

The Three Promises of Love Yours:

We create these products for our parents and loved ones, hoping to improve and assist them on their journey towards lasting healthiness

We cooperate with GMP manufacturers, ensuring the quality of our products

We create products that are both meaningful gifts and science based supplements that you can trust

About Brain One Gold:

Developed by Mediforum, a company that develops and researches new anti-dementia medications derived from natural ingredients, Brain One Gold is a health functional food that improves memory and prevents dementia through ingredients such as red ginseng concentrate, and six other patented formulas that combat dementia.

Crude drug composition for promoting memory which contains Rehmannia radix preparata extract

Patent Registration No. 10-0500029

Features of BrainOne Gold

Formulated and patented for memory improvement, based on hanbang (한방, an ancient formula of Korean herbs), and proven with clinical trial evidence

Improving immunity, fatigue, and blood flow by inhibiting platelet aggregation and its strong antioxidant properties

One packet a day for best results

A special health functional food made with 6-years-aged red ginseng

Enhanced anti-oxidant properties by including 7 berry varieties

Nutrition and function information

[Red ginseng] Help to support immune function, relieve from fatigue, maintain healthy blood flow by inhibiting blood coagulation of platelet, improve memory, anti-oxidant.

OUR REPRESENTATIVE

Amy Chow, CEO of BIJOUMONTRE (ASIA) LIMITED and Vice President of GORDON C & CO LTD. Growing up and educated in Switzerland and Canada, she has inherited her family's mission and has been involved in the watch industry for over 20 years. Her extensive experience and a high sense in the high-end fashion luxury market have caught the attention of BIJOUMONTRE, and she was appointed as the Asia-Pacific President by BIJOUMONTRE in 2015.

- Member of CPPC of Huangpu District, Shanghai, PRC
- HKTDC Watch and Clock Fair Advisory Committee Member
- Hong Kong Watch Manufacturer Association Vice President

BIJOUMONTRE (ASIA) LIMITED

Units 1801-4, 18/F, Tower 2 Metroplaza, 223 Hing Fong Road, Kwai Chung, N.T., Hong Kong

OUR HISTORY

Founded 2004, BIJOUMONTRE is located at the heart of the city of la Chaux-de-fonds, a Swiss town famous for its watchmaking heritage far exceeding 150 years. Standing tall on its promise to create the most refined "Swiss-Made" jewelry watches for women.

OUR BELIEF

Our aim is to awaken every woman that they are **brave, beautiful and brilliant**.

Our daring designs and innovations courageously challenge the status-quo in watchmaking and defy conventions. BIJOUMONTRE takes endless inspiration by women and their unique personalities to create outstanding products, which cater to just her and her every need.

OUR PRODUCT

The signature of BIJOUMONTRE's products is to bring up the **DIY** concept, user can **mix and match** to create their own design by assembling different **charms and straps**. Each collection contains innovative ideas, leading users to explore the BIJOUMONTRE watch creativity.

GORDON C & CO LTD

BRAND HISTORY

GORDON C is a prominent leader in watch design and manufacturing since 1972. We have earned reputation for our exceptional prowess in **providing customized OEM (Original Equipment Manufacturing) and ODM (Original Design Manufacturing) services** tailored to the needs of esteemed international brands and clients, crafting timepieces that epitomize sophistication and precision.

HOLISTIC EXCELLENCE

We pride ourselves in the streamlined management framework from market research to product conceptualization, design curation, material sourcing, production, all the way to after-sales-services. Our one-stop solution has earned GORDON C a sterling reputation within the watch industry.

ENGINEERING ELEGANCE

We offer a **one-stop solution to transform ideas into reality**, seamlessly. Our engineers take ideas from intricate 2D, 3D and STL drawings to the prototyping stage in a rapid fashion.

With well-established and long-standing procurement and supplier relations, we ensure swift and cost effective sourcing, creating efficient product roadmaps and production lines.

CUSTOMER CENTRIC COMMITMENT

We hold a steadfast belief that upholding **stringent product quality standards** is pivotal in earning the respect and trust of our valued customers. Our unwavering focus on customers drives us to deliver comprehensive solutions, consistently **generating top-of-the-line value** and **sustaining peak competitiveness**.

PROFESSIONAL SWISS MADE CONSULTING

Through longstanding global experience in watch manufacturing, GORDON C supports its client through dedicated **one-stop Swissness solutions for Swiss-made watches** and their unrivaled intrinsic technical complication represented, as outlined by the Swiss Confederation.

Lions Club of Hong Kong Universal Fraternity - President
- 3: Macau Pawnbroker General Chamber of Commerce - Vice President and Secretary
- 4: The Federation of Hong Kong Watch Trades & Industries Limited - Director
- 5: Hong Kong Jade Association - Permanent Honorary President

We have been operating jewelry and watch trading business for more than 30 years. We have rich experience and welcome colleagues to cooperate.

My experience in the luxury watch industry.

I am a person who is passionate about luxury watches and has extensive experience in this field. I have been engaged in the luxury watch industry for many years, focusing on the sales and wholesale of second-hand Rolex watches. During this time, I have accumulated a wealth of professional knowledge and extensive industry experience.

In my work, I have always treated every customer and every transaction with a serious attitude. I believe that for high value items like luxury watches, honesty and professionalism are the most important. Therefore, I always insist on treating every product with the highest standards to ensure their quality and authenticity.

In addition to selling luxury watches in retail stores, I also own my own connoisseur wholesale business in Hong Kong. This allows me to work with a wider client base and gain a better understanding of market needs and trends. This also provides me with more opportunities to continue learning and growing.

In this industry, I know the value and story behind every famous watch. I have an in-depth understanding of the history and craftsmanship of each luxury watch, which allows me to better help customers choose the product that best suits them.

Overall, I am passionate about the luxury watch industry and enjoy sharing my expertise and experience with others. I believe that this industry still has unlimited potential and opportunities, and I look forward to continuing to make more contributions to this industry in the future.
